IN THE CLAIMS

Please amend claim as follows:

- Sub D17  
C
1. (THREE TIMES AMENDED) A golf ball comprising:  
a dual core having a center component and a core layer disposed about said center component; and, a cover disposed about said dual core;  
wherein said center component comprises a thermoset material and said core layer comprises a thermoplastic material;  
wherein said cover consists of a single cover layer having a Shore D hardness of from about 40 to 55.
